## Work experience

### Backend Developer.

Oct 2022 - Mar 2023

#### @Techfusion NY.

Techfusion NY was established around 6 years ago.

I have been working on different types of projects such as Inventory management systems, healthcare integration, application and other directions.

### Motion Graphic Designer.

Apr 2022 - Sep 2022

#### @Sadeel Media Production.

Sadeel Media was a startup at that time, I worked at multiple positions, including front end development, designing, animating, art direction and a team lead for many projects.

Being a team lead, I have completed so many projects that helped the company grow, also I have worked on designing the company showreel of that year.

### Freelancer.

2019 - Present

#### @Social Media and Freelance Platforms .

I have skills that are in demand in the market. I started applying for projects on (Mostaql), and everything went well.

Each project I completed gave me more confidence and helped me get bigger projects.

# Trainings

## **Coursework:**

- Backend development with Java
- Modern frontend development
- Design patterns and Solid principles
- Problem solving training for IOI and IMO
- Algorithm Design and Data Structure

## **Preschool Diploma:**

- Android app development with Java

## **Scholarships:**

- Access Micro scholarship program

# Education

- 2021 - Present:  
Cyber security engineering  
University College of Applied Sciences (UCAS) - Gaza  
96.4%
- 2019 - 2021:  
Secondary school  
AlHaj Mohammed ElNajjar school  
98.9%

# Achievements

- Got First Place in University Batch for Four Consecutive Semesters, Attaining a GPA of 96.4%
- Winning the Palestinian Quantum Computing Hackathon and representing palestine at the international quantum computing .hackathon - New York Abu Dhabi
